

ZoS 117 • ROMAN SNAIL

Helix pomatia. Scale: 6:1, in SOMSO-PLAST®. After Christian Groß, Director of Studies. From the right, you have a full view of the shell. Viewed from the left, the snail is opened. The portion of the intestinal canal between the retropharynx and the small intestine can be removed, fully revealing the hermaphroditic genital system. Separates into 4 parts. On a green base.

Height: 28 cm, width: 70 cm, depth: 38 cm, weight: 7.5 kg
